Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3729

DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

In the drawing:

The drawings are objected to because of the following:

a) Leading lines for each arrowhead is missing from the drawings (i.e., Figs 1-3, show number of arrowheads but lacking of lines from an associated reference number to the arrowheads thereof).

b) The claimed subject matter "said guide surface 15 drives the ribbon in two opposite direction of travel" is not shown in the drawings.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

In the title:

The title of the invention is too long. A new title is required that is clearly indicative of the invention to which the claims are directed. The following title is suggested: "A crimping unit and method for crimping flat cable.

In the abstract:

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details. Further, the language should be clear and concise and should not repeat information given in the title. It should avoid

Art Unit: 3729

using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

In the claims:

a) "receives a connector" (claim 7, line 15) should be changed to: --receives the connector--.

c) "a crimping unit "(claim 12, line 3) should be changed to: --the crimping unit--.

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Prior art references are cited for their teaching of crimping unit for flat cable.
